CHROMAGRID

Geometric block art. Clear choices.

Business identity

Chromagrid is a fictional online store selling predefined geometric block-art designs to individual customers across Lebanon. It operates exclusively online and has no physical showroom or walk-in store. Customers can purchase each configuration as a DIY kit or a completed piece.

The brand uses a professional, restrained tone focused on composition, color, and clear product information.

Mission

Help individuals create considered living spaces through a coordinated collection of geometric block art and clear choices of size, format, and surface.

Unique value proposition

Chromagrid combines a coordinated geometric-art catalogue with a clearly structured choice of dimensions, aspect ratios, and block surfaces. Customers can select a hands-on DIY experience or a completed artwork within the same range.

Fictional team

Lara Nassar - Co-founder and Creative Director

Lara oversees the artwork catalogue, visual identity, and presentation of each collection. She selects designs and maintains consistency across the range.

Karim Haddad - Co-founder and Operations Director

Karim manages the online store, production partners, order preparation, and coordination with delivery providers. He maintains product and availability information.

Maya Saleh - Customer Experience Coordinator

Maya answers product questions, helps customers select artwork, collects enquiries, and coordinates support for delivery issues and customer feedback.

Customer journey

1. The customer browses the online catalogue or asks the assistant for product guidance.
2. The customer chooses a design, size tier, format, block surface, and DIY kit or completed piece.
3. The customer places an order through the online store.
4. The operations team arranges order preparation and delivery.
5. The customer can use the chatbot for routine questions and to record issues needing follow-up.

Checkout and payment are handled by the store, not by the assignment chatbot.

Products and services

Chromagrid offers three size tiers, three aspect ratios, and three block surfaces. These create 27 configurations. Each configuration is available as a DIY kit or a completed piece, giving 54 purchase options per design.

The catalogue uses predefined geometric designs. Custom artwork commissions, customer-photo products, and digital downloads are outside this fictional offering.

Dimensions below are width x height. Block spacing is 8 mm, so artwork dimensions in centimeters equal grid dimensions multiplied by 0.8. These measurements exclude any frame. Each grid position uses one visible 1x1 piece; backing components are separate.

Size tier	Format	Grid in blocks	Visible pieces	Artwork dimensions in cm
Compact	Square (1:1)	48 x 48	2,304	38.4 x 38.4
Compact	Portrait (3:4)	36 x 48	1,728	28.8 x 38.4
Compact	Landscape (4:3)	48 x 36	1,728	38.4 x 28.8
Standard	Square (1:1)	64 x 64	4,096	51.2 x 51.2
Standard	Portrait (3:4)	48 x 64	3,072	38.4 x 51.2
Standard	Landscape (4:3)	64 x 48	3,072	51.2 x 38.4
Large	Square (1:1)	80 x 80	6,400	64.0 x 64.0
Large	Portrait (3:4)	60 x 80	4,800	48.0 x 64.0
Large	Landscape (4:3)	80 x 60	4,800	64.0 x 48.0

All nine grid formats are available with each of these block surfaces:

- Smooth square: square 1x1 tiles without visible studs.
- Studded square: square 1x1 plates with visible studs.
- Round: circular 1x1 pieces, leaving gaps through which the backing is visible.

Customers can ask for guidance on size, aspect ratio, block surface, and DIY versus completed products. DIY kits contain the required blocks, backing base, and assembly guide. Completed pieces arrive assembled on the same backing base. Frames are excluded. Backing colors, spare-block quantities, assembly-time estimates, and installation instructions beyond the included guide have not been defined. No stock quantities or live availability have been defined.

Predefined designs

The initial fictional collection contains three designs:

- Axis: intersecting horizontal and vertical bands in navy, cream, and muted blue. Suitable for customers who prefer a structured, linear composition.
- Orbit: concentric stepped rings in terracotta, sand, and charcoal. Suitable for customers who prefer a centered composition with warm colors.
- Offset: staggered rectangular forms in forest green, sage, and cream. Suitable for customers who prefer an asymmetrical composition.

Each design is available in all 27 configurations and both product forms, giving 54 purchase options per design and 162 across the collection. The composition is adapted to square, portrait, and landscape formats rather than cropped from a single image. Design choice does not change the listed price. These descriptions define the fictional catalogue; artwork previews have not been provided. Named artwork colors do not establish backing colors or live stock availability.

Approved prices

All prices are in USD and are final product prices. The only additional checkout charge is USD 5 delivery per order, applied once even when an order contains multiple items. No separate tax or other fee is added in this fictional scenario.

Portrait and landscape have the same price within a size tier and surface type because their grids contain the same number of blocks. Completed pieces add an assembly fee to the corresponding kit price: USD 20 Compact, USD 35 Standard, or USD 50 Large.

Size tier	Format	Grid	Block surface	DIY kit (USD)	Completed piece (USD)
Compact	Square (1:1)	48 x 48	Smooth square	60	80
Compact	Square (1:1)	48 x 48	Studded square	65	85
Compact	Square (1:1)	48 x 48	Round	70	90
Compact	Portrait (3:4)	36 x 48	Smooth square	45	65
Compact	Portrait (3:4)	36 x 48	Studded square	50	70
Compact	Portrait (3:4)	36 x 48	Round	55	75
Compact	Landscape (4:3)	48 x 36	Smooth square	45	65
Compact	Landscape (4:3)	48 x 36	Studded square	50	70
Compact	Landscape (4:3)	48 x 36	Round	55	75
Standard	Square (1:1)	64 x 64	Smooth square	105	140
Standard	Square (1:1)	64 x 64	Studded square	115	150
Standard	Square (1:1)	64 x 64	Round	120	155
Standard	Portrait (3:4)	48 x 64	Smooth square	80	115
Standard	Portrait (3:4)	48 x 64	Studded square	90	125
Standard	Portrait (3:4)	48 x 64	Round	95	130
Standard	Landscape (4:3)	64 x 48	Smooth square	80	115
Standard	Landscape (4:3)	64 x 48	Studded square	90	125
Standard	Landscape (4:3)	64 x 48	Round	95	130
Large	Square (1:1)	80 x 80	Smooth square	165	215
Large	Square (1:1)	80 x 80	Studded square	180	230
Large	Square (1:1)	80 x 80	Round	185	235
Large	Portrait (3:4)	60 x 80	Smooth square	125	175
Large	Portrait (3:4)	60 x 80	Studded square	140	190
Large	Portrait (3:4)	60 x 80	Round	145	195
Large	Landscape (4:3)	80 x 60	Smooth square	125	175
Large	Landscape (4:3)	80 x 60	Studded square	140	190
Large	Landscape (4:3)	80 x 60	Round	145	195

Example: a Standard portrait with round pieces costs USD 95 as a DIY kit or USD 130 completed. With delivery, a single-item order totals USD 100 or USD 135 respectively.

Approved payment and delivery terms

- Payment methods: card payment and cash on delivery.
- Delivery coverage: across Lebanon.
- Delivery fee: USD 5 per order.
- Estimated delivery time: 3-5 business days from store confirmation of the order, for both DIY kits and completed pieces. This is an estimate, not a guaranteed arrival date.

Approved return and damaged-delivery terms

Customers may return an undamaged item in its original packaging within seven days after delivery. DIY kits must be complete and unassembled. Customers pay return shipping for change-of-mind returns. Refunds cover the product price and are processed within five business days after inspection. The original delivery fee is not part of the product-price refund.

For a damaged delivery, the customer should report the issue within 48 hours of delivery and provide photographs to request a free replacement. Chromagrid covers replacement delivery for damaged items. The refund method and photo-submission procedure have not been defined. The assignment chatbot does not accept image uploads or process refund or replacement requests.

Business support capabilities

Support is English-only for this assignment. The chatbot provides information about the business, designs, product configurations, prices, and approved policies. It can record interested customers' names, email addresses, and notes, and log feedback or unanswered questions.

The assignment chatbot cannot connect customers to a human agent, notify staff, verify orders, place orders, accept payment, approve returns, or process refunds or replacements. Logging an enquiry records it for the demonstration; it does not confirm that staff received it or guarantee a reply. No support response time or follow-up channel has been defined.

Information not defined

The following details are outside the defined business information for this assignment:

- Live stock and individual order status.
- Backing colors, spare-block quantities, assembly-time estimates, and installation guidance beyond the included assembly guide.
- Artwork previews.
- Refund method and damage-photo submission procedure.
- Store URL, support contact details, staff availability, and follow-up response times.
